

THE MEGA 360 Event Game Conditions

RULES AND REGULATIONS:

1. “THE MEGA 360 Event” (the “Final Event”) is governed by the Rules and Regulations Respecting Lotteries and Gaming (The “General Rules”) of ATLANTIC LOTTERY CORPORATION (ALC) WHICH INCLUDE LIMITATIONS OF LIABILITY AND ARE AVAILABLE FROM ALC UPON REQUEST and these Game Conditions.
2. These Game Conditions (hereinafter referred to as the “Rules”) apply to the Final Event (s) related to all \$5 “THE MEGA 360” instant ticket game(s) and “THE MEGA 360” Instant Win game that are conducted and managed by ALC. Unless otherwise noted, these Rules operate as separate and distinct from any conditions contained on any “THE MEGA 360” Instant tickets and “THE MEGA 360” Instant Win Game.
3. Words used in these Rules which are used in the General Rules shall have the same meaning as those used in the General Rules. In the event of any conflict or inconsistency between these Rules and the General Rules, the General Rules shall govern.

ANIMATED WHEEL AT RETAIL LOCATION:

4. In the event of any discrepancy or dispute between (i) the prize displayed on the animated wheel at a retail location for a Mega 360 ticket and (ii) the prize, if any, recorded on ALC’s Central System for the control/validation number for that Mega 360 ticket, the information on ALC’s Central System for the control/validation number for that Mega 360 ticket will prevail and will be the final authority in determining the prize the player is entitled to claim.

FINAL EVENT PARTICIPATION

Classification: Internal. This information is considered normal or routine business information. Any employee within Atlantic Lottery may view the information. Discretion should be used when sharing the information with third parties and stakeholders.

6. A player may participate in the Final Event in one of three (3) ways, as outlined in Rules 6 to 8.
7. **Spin-** Subject to Rules 7 and 8 a player may elect to participate using the Spin method. When participating using this method:
 - (a) a player will be provided three (3) chances to complete a single valid Spin. A valid Spin consists of at least three (3) full three-hundred and sixty degree (360°) rotations of The Mega 360 Wheel (the “Wheel”) in a downward direction, as determined by ALC. After the player has completed their first valid Spin, he/she will not be provided any more chances to Spin. Any Spin that is not a valid Spin is deemed to be void and shall not result in any entitlement to a Prize;
 - (b) the start position of the Wheel for a Spin will be determined by an electronic RNG draw. ALC will conduct an electronic draw using its certified Electronic RNG draw equipment prior to the Spin Event. The draw parameters will be set to draw 1 number at random from among all numbers from 1 to 20 to determine the start position of the Wheel for each Spin in accordance with Rule 14. The number drawn will signify the starting sector position of the wheel for the Spin attempt. The second and third attempts if necessary will start from the resting place of the invalid spin. The Wheel has sector numbers clearly labeled from 1 to 20 (e.g. if the first number drawn is 4 then the starting position of the Wheel for the first Spin attempt would be sector 4);
 - (c) the Prize to which the player is entitled shall be determined by the final resting place of the Wheel at the end of the first valid Spin. The Wheel is deemed to have reached the final resting place when it comes to a complete stop and ALC declares the Spin complete. The Prize will be determined by the final resting place of the white plastic tab that produces the “click” noise. For avoidance of doubt, the white plastic tab shall ultimately determine the Prize and not the red arrow. If for any reason the Wheel moves after ALC has declared the Spin complete, the position of the Wheel at the time ALC declared the Spin to be complete shall be deemed as the final resting place of the Wheel; and
 - (d) in the event a player does not complete a valid Spin after three (3) attempts, the electronic (RNG) Draw method shall be used to determine a player’s entitlement to a Prize.
8. **Electronic RNG Draw** – to participate using this method:
 - (a) if a player is unable to participate using the Spin method for reasons of disability or infirmity he/she may elect to have his/her final Prize determined by an electronic draw with the certified RNG, or a player may be required to proceed with the electronic draw with the certified RNG pursuant to Rule 6(d), or a Group may elect to proceed with an electronic draw with the certified RNG accordance with Rule 11;
 - (b) the Corporation will conduct one (1) random draw from all numbers 1-20 using an electronic draw with the certified RNG to determine the player’s entitlement to a Prize; and .

(c) the first number drawn from the electronic draw with the certified RNG shall determine a player's entitlement to a Prize in accordance with the table in Rule 14.

9. Default Win- If:

- (a) a player is unable or unwilling to designate a Proxy, within the time specified by ALC for doing so;

A Proxy:

the Proxy may not exercise the election to participate through the electronic (RNG) method, and such election may only be made by the designator. A Proxy must be 19 years of age or older, and must not be an employee of ALC.
