How To Bet

7s Wild features 5 paylines.

LINE BET

Displays the current bet per line shown in currency.
Press the left arrow (–) to decrease the bet per line.
Press the right arrow (+) to increase the bet per line.

LINES

Displays the current number of paylines selected.
Press the left arrow (–) to decrease the number of paylines played.
Press the right arrow (+) to increase the number of paylines played.

SPIN

Press to submit the bet and spin the reels.

Free Spins Bonus

Five 7s appearing anywhere on the reels award the player five free spins.
During the *Free Spins Bonus* all 7s are wild.
The bonus does not retrigger. Free spins are played at the same line bet as the triggering spin

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left or far right reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line. Coinciding line wins on different paylines are added.

Wins are shown in currency.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction. See the payable for details. A transaction includes the results of the *Free Spins Bonus*, plus the

outcome which launched the bonus.

Additional Information

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
