

Cleopatra Gold

Cleopatra Gold features the classic *Cleopatra* gameplay you know and love, but now includes the added excitement of the incredible *Gold Spins* respin feature!

Cleopatra and Cleopatra Gold symbols are both wild, doubling the pay of any line win they substitute in during the base game, and tripling any line win they substitute in during the bonus. When a full stack of Cleopatra Gold symbols lands, enjoy a free spin on a brand-new set of reels that appears stacked on top of the triggering reel window! And keep an eye on those Cleopatra Gold symbols. Every time they land in a partial stack, there is a chance they will all nudge up or down to fill the reels and award the *Gold Spins* feature!

Gold Spins Feature

During the base game or *Free Spins Bonus*, Cleopatra Gold symbols in all positions on a reel trigger the *Gold Spins* feature. Cleopatra Gold symbols appearing in any position on a reel may nudge up or down 1 or 2 positions to fill all positions on that reel.

When triggered, the *Gold Spins* feature awards a free respin on a new reel window that appears above the triggering reel window. A total of 3 reel windows may appear stacked on top of one another during the feature:

Reel windows 2 and 3 are available only when a *Gold Spins* spin is awarded for that reel window.

If 1 or 2 Bonus scatter symbols appear in any position on the reels of a base game or free spin that awards a *Gold Spins* reel window, or appear on any position on the reels of a *Gold Spins* feature position, those symbols are collected in the bonus collection meter.

When 3 Bonus scatter symbols have been collected in the bonus collection meter, 10 free spins are awarded. Each additional Bonus scatter symbol appearing in any position on the reels during that *Gold Spins* feature adds 2 extra free spins to the free spins collection meter in the base game, or in the *Free Spins Bonus*.

Free spins, if awarded, are played after the completion of a *Gold Spins* feature. The bonus collection meter, or the free spins collection meter is cleared after the completion of the *Gold Spins* feature.

The *Gold Spins* feature starts on reel window 2.

If the feature-awarding symbols appear after the *Gold Spin* on reel window 2, a *Gold Spin* on reel window 3 is awarded.

If the feature-awarding symbols appear after the *Gold Spin* on reel window 3, an additional *Gold Spin* on reel window 3 is awarded.

If the feature-awarding symbols appear after the *Gold Spin* on reel window 1, a *Gold Spin* on reel window 2 is awarded.

If the feature-awarding symbols do not appear after a *Gold Spin* on reel window 2, a *Gold Spin* on reel window 1 is awarded.

If the feature-awarding symbols do not appear after a *Gold Spin* on reel window 3, an additional *Gold Spin* on reel window 2 is awarded.

If the feature-awarding symbols do not appear after a *Gold Spin* on reel window 1, the feature ends.

If full stacks of Cleopatra Gold symbols land 30 times in a single *Gold Spins* feature, no additional *Gold Spins* are awarded during that feature.

Gold Spins in each reel window are played automatically on the same lines and at the same coin value as the spin that triggered the feature. Line wins in each reel window are evaluated independently.

Wins are evaluated after all reel nudges are complete.

The feature ends after reel window 1 spins without triggering the feature.

Different reels are used in reel windows 2 and 3.

Free Spins Bonus

The *Free Spins Bonus* is triggered when three or more Bonus scatter symbols appear anywhere on the reels during a base game spin or any *Gold Spins* feature triggered during that base game spin. The initial 3 Bonus symbols award 10 free spins. Each additional Bonus symbol appearing in any position on the reels on that base game spin or during a *Gold Spins* feature triggered from that base game spin awards 2 additional free spins.

Free spins are played at the same coin value and same number of paylines as the triggering spin.

During the bonus, if one or more Cleopatra or Cleopatra Gold symbol substitutes in a win, the pay for that win is tripled.

The *Free Spins Bonus* is retriggered when three or more Bonus scatter symbols appear anywhere on the reels during a bonus spin or any *Gold Spins* feature triggered during that bonus spin. The initial 3 Bonus symbols award 10 extra free spins. Each additional Bonus symbol appearing in any position on the reels on that bonus spin or during a *Gold Spins* feature triggered from that bonus spin awards 2 additional free spins.

The bonus can be retriggered multiple times, up to a maximum of 150 free spins per bonus.

Reels used in the *Free Spins Bonus* are different from the reels used in the base game.

Rules

Misuse or malfunction voids all pays and plays.

Reels are determined at the start of each spin.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far-left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the coin value on the winning line. Coinciding line wins on different paylines are added.

Scatter symbols pay in any position on the reels of a single reel window.

Only the highest scatter win is paid. Scatter wins are multiplied by the total bet.

Scatter wins are independent from line wins and are added to the total amount paid.

Bonus wins are independent from line wins and are added to the total amount paid.

Cleopatra and Cleopatra Gold symbols are wild and substitute for all symbols except the Bonus symbol. Cleopatra symbol does not substitute for Cleopatra Gold symbols to award the Gold Spins Feature.

When one or more Cleopatra and/or Cleopatra Gold symbols substitute in a win, that win is doubled in the base game only.

When one or more Cleopatra and/or Cleopatra Gold symbols substitute in a win, that win is tripled in the *Free Spins Bonus* only.

Wins are shown in currency.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction. See the payable for details. A transaction includes the results of the bonus, plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

Additional Information

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent, except in cases where one spin unlocks a feature for a subsequent spin or series of spins, per the game rules. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given spin of the game, the chances of winning the top award on the next spin are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of spins by numerous players over an extended period of time. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
