Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far-left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the coin value on the winning line. Coinciding line wins on different paylines are added.

Only the highest scatter win is paid. Scatter wins are multiplied by the total bet.

Scatter wins are independent from line wins and are added to the total amount paid.

Bonus wins are independent from line wins and are added to the total amount paid.

When 1 or more Cleopatra Wild Symbols substitute in a win, that win is doubled.

The *Diamond Spins Bonus* is played on independent reels. All awards are scattered. No paylines are used.

Maxi Prize and Mini Prize awards are multiplied by the total bet. More than one Maxi Prize or Mini Prize can be won during the same *Diamond Spins Bonus*.

Grand, Major, and Minor Progressives can only be won once during the *Diamond Spins Bonus*. However, more than 1 Progressive can be won during the same *Diamond Spins Bonus*. With all accumulated wins awarded to the player.

Grand, Major, and Minor Progressives are shared progressives. The growth is funded by a fixed percentage of each bet placed by all players.

The likelihood of winning the Grand Progressive, Major Progressive, Minor Progressive, or bonus awards is not equal.

The odds of winning the Grand Progressive, Major Progressive, and Minor Progressive are proportional to the actual bet amount within an accuracy of 0.1%.

The amounts paid for the Grand, Major, and Minor Progressives are approximately the amount seen on the progressive meters when the win occurs. Potentially, the awarded progressive could be somewhat higher because of display delays. In an exceptionally rare case, 2 players may simultaneously win the same progressive. The order of winners is determined solely by the timestamp applied to each transaction request as it is received by our servers. The official winning outcome belongs to the player whose transaction timestamp is first. The player whose timestamp is second will win the progressive re-seed amount if their winning outcome occurred just after the other player's win, but before the meter was able to reset.

Wins are shown in currency.

In some jurisdictions, regardless of bet size, there may be an award cap on any single transaction. See the paytable for details. A transaction includes the results of the bonus, plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.
