Fort Knox Bonus

The **Fort Knox Bonus** may be randomly triggered on any base game spin that does not trigger the *Cleopatra Bonus*.

Collect 3 matching symbols to win the corresponding Platinum, Gold, Silver, or Copper prize.

If a stack of cash is revealed, the boost meter is filled a random amount. If the boost meter breaches the first level, the Platinum, Gold, Silver, and Copper prize values are boosted. Boosts are added to the reset value of the prize.

If the boost meter breaches the second level, the Platinum, Gold, Silver, and Copper prize values are boosted again.

If both the first and second boost levels are breached on a single pick, the award values are increased by both the first and second level boost values.

If the third boost level is breached, the Jackpot is awarded.

Boost values and the Platinum, Gold, Silver, and Copper reset values are multiplied by the coin value.

Only 1 prize can be awarded.

Platinum, Gold, Silver, and Copper prize values reset after every bonus.

Cleopatra Bonus

The *Cleopatra Bonus* is triggered when 3 or more Sphinx Scatter Symbols appear anywhere on the reels. These symbols are found on reels 1, 2, 3, 4, and 5.

Triggering the *Cleopatra Bonus* awards 15 free spins.

All wins, except 5 Cleopatra Symbols, are tripled in the bonus.

The *Cleopatra Bonus* is retriggered when 3 or more Sphinx Scatter Symbols appear anywhere on the reels.

The bonus can be retriggered multiple times, up to a maximum of 180 free spins per bonus.

Free spins are played at same coin value as the triggering spin.

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far-left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the coin value on the winning line. Coinciding line wins on different paylines are added.

Only the highest scatter win is paid. Scatter wins are multiplied by the coin value.

Scatter wins are independent from line wins and are added to the total amount paid.

Bonus wins are independent from line wins and are added to the total amount paid.

Cleopatra Symbol is wild and substitutes for all symbols except Sphinx Scatter Symbol in the base game and the *Cleopatra Bonus*.

Platinum, Gold, Silver, and Copper prizes are multiplied by the coin value. Only 1 Platinum, Gold, Silver, or Copper prize can be won during the same *Fort Knox Bonus*.

The Jackpot is a shared progressive. The growth is funded by a fixed percentage of each bet placed by all players.

The likelihood of winning the Jackpot or bonus awards is not equal.

The odds of winning the Jackpot are proportional to the actual bet amount within an accuracy of 0.1%.

The amount paid for the Jackpot is approximately the amount seen on the progressive meter when the win occurs. Potentially, the awarded progressive could be somewhat higher because of display delays. In an exceptionally rare case, 2 players may simultaneously win the same progressive. The order of winners is determined solely by the timestamp applied to each transaction request as it is received by our servers. The official winning outcome belongs to the player whose transaction timestamp is first. The player whose timestamp is second will win the progressive re-seed amount if their winning outcome occurred just after the other player's win, but before the meter was able to reset.

Wins are shown in currency.

In some jurisdictions, regardless of bet size, there may be an award cap on any single transaction. See the paytable for details. A transaction includes the results of the bonus, plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.
