#### Notes:

- Card order does not matter.
- Ace can be treated as lowest rank to complete a straight (e.g. A-2-3-4-5).
- Ace can be treated as highest rank to complete a straight (e.g. 10-J-Q-K-A).
- 5 of a Kind requires at least 1 Wild card in the hand.
- Only highest paying outcome paid per hand.
- Different paytables can have different minimum rankings for which prizes are paid (e.g. the lowest winning outcome in **Deuces Wild Progressive** is 3 of a Kind).

## Wild Cards

---

Some paytables are based on the use of one or more wild cards:

- In **Deuces Wild Progressive** and **Deuces Wild Bonus Progressive**, each of the 4 cards with the rank of '2' is wild.
- A given wild card can substitute for any other card to form the highest paying outcome.
- In **Deuces Wild Progressive** and **Deuces Wild Bonus Progressive**, the wild can be evaluated as a regular '2' if that maximizes the outcome (e.g. for the hand A♣-2♥-3♣-4♣-5♣, the wild card is evaluated as a 2♣ in order to form a straight flush – the highest outcome possible for that hand).
- Certain paytables pay a different award amount for a Royal Flush based on whether or not the hand contains any wild cards – see payable for details.
- Dealt wild cards are not automatically held.
- A given wild card in the deck is equally as likely to be dealt as any other remaining card.

## Winning the Progressive Jackpot

---

At a total bet of 500x the coin value or more, a natural Royal Flush (without Wilds) awards the Progressive Jackpot. The Royal Flush prize is not awarded in addition to the Progressive Jackpot.

Progressive Jackpot can be won on the deal or the draw.

The Progressive Jackpot is shown in currency and is not multiplied by any value.

The odds of winning the Progressive Jackpot are based on the selected payable.

## **Rules**

---

Misuse or malfunction voids all pays and plays.

Cards are dealt from one deck of 52 standard playing cards per hand, shuffled for each game.

Only highest winner paid.

If a Royal Flush is dealt on the initial deal, all cards are automatically held.

If any other winning hand is dealt on the initial deal, no cards are automatically held.

Wins are shown in currency and are based on the size of the bet.

The amount paid after verification is approximately the amount seen on the Jackpot meter when the win occurs. Potentially, the awarded Jackpot could be somewhat higher because of display delays.

In an exceptionally rare case, 2 players may simultaneously win the same progressive jackpot. The order of winners is determined solely by the timestamp applied to each transaction request as it is received by our servers. The official winning outcome belongs to the player whose transaction timestamp is first. The player whose timestamp is second will win the jackpot re-seed amount if their winning outcome occurred just after the other player's win, but before the meter was able to reset.

Jackpot represents an increasing top award where the growth is funded by a fixed percentage of each bet placed by all players playing for the jackpot.
